Fruit growing Institute

BILATERALNI SASTANCI

(12:30 - 15:30)

OPIS The Fruit Growing Institute-Plovdiv is a permanent and basic scientific unit of the Agricultural Academy at the Ministry of Agriculture and Food Supply. The FGI is assigned to research, extension activities and service in the field of fruit growing. The Fruit Growing Institute is a successor of the Fruit Growing Experimental Station which was founded in the beginning of 1950 in Plovdiv with 50 ha agricultural land in Plovdiv's suburb "Ostromila" (Governmental Decree № 4 of 28 December 1949 with regard to the measures for improvement of fruit growing).
